

## Courses in Spring 2010 satisfying a science requirement

The following courses to be offered in the spring satisfy a **science** requirement. As indicated, some satisfy the requirement for laboratory science; the courses without lab count toward the general math/science requirement, but not toward the lab science portion of that requirement. In the schedule, be sure to note lab times as well as the class (lecture) times listed below. (In the schedule on the web, Thursday is coded as "R.")

### Lab Science:
